Complaints and Internal Investigations Review

The Lebanon Division of Police investigated nine complaints against the agency in 2015. Of the nine complaints, eight of the complaints were external and filed by members of the community and one internal complaint was filed by a member of the police agency.

Supervisors reviewed the eight external (community) complaints against the agency and determined that five of the complaints were unfounded and exonerated the agency on the other three complaints.

Chief Mitchell investigated the internal (employee) complaint filed against the agency and the officer accused of wrongdoing was exonerated.

Based on this data, there are no recommended changes to training, policy revisions or intervention.

Complaints	2013	2014	2015
Exonerated	1	3	4
Sustained	1	1	0
Sustained on Policy	0	0	0
Not Sustained	2	0	0
Unfounded	8	0	5
Total	12	3	9
